

Digital Retail Banking

Digital banking is not just about having a mobile banking app. The digital bank accelerator is quickly deployable within 3 months.

Most tier 2 and 3 banks have limited budgets and access to technology. But what if you could build a true digital banking offering for customers, which allows you to go live in 3 months flat?

Persistent's Digital Bank template is quickly deployable for your standard loan and deposit products. It offers standard integrations with LOS, credit decisioning, and GL systems amongst others.

- \ Standard, personal, home, and vehicle loan products out-of-the-box
- \ Standard savings, checking and term deposits products out-of-the-box
- \ Credit/Debit card management
- \ Complex loan products possible with flexible amortizations
- \ Multi currency
- \ SOC 1 Type 2 compliance for in process

- \ Cloud deployment — available on AWS in multiple countries
- \ Business rules-driven workflow for necessary approvals and task allocations with inbuilt process orchestrator
- \ Microservices enabled plug-n-play architecture for easy integration with back-end and front-end systems
- \ Persistent accelerator has pre-built connectors for seamless integration with multiple 3rd party systems applications
- \ Microservices architecture and modular design

About Persistent

Persistent Systems (BSE & NSE: PERSISTENT) builds software that drives our customers' business; enterprises and software product companies with software at the core of their digital transformation. www.persistent.com

About OutSystems

OutSystems is the number one low-code platform for rapid application development. Thousands of customers worldwide trust OutSystems as the only solution that combines the power of low-code development with advanced mobile capabilities, enabling visual development of entire application portfolios that easily integrate with existing systems.
